In para 341 of the A.E.C. Report, 1948, it has been recommended that the numerous activities of a Deptt. shd. be integrated through District officers and these shd. be not wasteful multiplication of subdte. officials for separate kinds of work in the same Deptt.

2. This recommendation was discussed in detail in ~~connection~~^{Secy's} connection with the ^X meeting which is being held today to discuss the A E C Report - Ch X.

It has been explained that in the P.W.D. except in few cases the R & B. and Irrign. charges are combined. In cases where the activities of the Deptt in respect of Roads or Irrign. were greatly concentrated that it was necy. to have separate charges for "Roads" or "Irrign" ~~separately~~ ~~concentrated~~ Nevertheless the activities are integrated in though the Ex.Engr.

3. The recommendation may be accepted in principle & the P & D may be informed as per Draft put up.

2. The recommendation contained in para. 3.41 of the Adme.
Enquiry Committee's Report is accepted subject to the remarks
made in the following paras.

3 The P.W.D. though combined at the moment, mainly consists
of two separate branches - one for 'Roads and Buildings and the
other for 'Irrigation'. Generally combined charges for 'R & B.'
and Irrign. do exist but in cases where the activities in ~~respa~~
respect of Irrign are greatly concentrated separate charges
are functioning.

4, Similarly the work pertaining to the specialist services
e.g. Public Health and Electricity is carried out by a subordinate
staff under the supervision of an Ex. Engr. of the General Provl.
Service, pertaining to that branch. These branches of the P.W.D.
being highly specialised cannot be combined under one man.
